I personally want to thank you for business in the past.

Wells Roofing and Sheetmetal has closed effective December 31, 2022 after 38 years.

I have launched a new venture utilizing all the knowledge I acquired during the last 40 years.

COPPERWORXS is open for business!

Services I offer are:

- Hand soldered Custom copper flashing of all kinds
- Historic reproduction in copper
- Stove hoods, Counter tops, chimney wind screens, lanterns and more.

Turnaround time for flashing (window, door pans, band flashing, elliptical smooth, solid flashing etc.)

Is normally very quick.

I also offer consulting and design help for your special copper creation. This is a small, hands on operation, the only person you will be dealing with is me.

Also, just to be clear I am offering fabrication only, not installation.

Please go to my new web site <https://copperworx.net> and check it out.

My phone number is the same as previously was 843-881-8868. There are no other authorized agents or phone numbers for Wells Roofing, Inc. or Copperworx.LLC.

Please call if any of my services can be of help to you.

Look forward to hearing from you!

Sincerely,

Joe Wells
